## Diversity Policy

---

**Document revision 2024-11-01 14:02**

At AE Partner we practice diversity to drive business results, enhance our reputation, attract and recruit diverse team of talented people. Our diversity policy is to treat everyone equally without consideration for age, race, nationality, physical ability, culture, appearance, education or religious background. We practice non-punitive policy in our company to deal with conflicts that arise from people having different point of view.
